

July 10, 2012

Bonnie-Ross Parker, America's Connection Diva, was a breath of fresh air for our Chamber members at our June Lunch-N-Learn.

It is so easy to get caught up in the "networking" where we tell our message, give our business cards, shake a few hands; but what are we really doing? Bonnie taught us instead the "Joy of Connecting." With plenty of must do tips to apply immediately such as "never give a business card without someone asking" to helping us see the bigger picture of life with thought provoking quotes to keep such as "You never know who you're going to meet and the difference you can make," Bonnie made a difference in how we all see networking, and she will do the same for your group too!

Bonnie's presentation is filled with real life stories and a twist on some of the most common networking pitfalls that we may not even be aware we're doing. Everyone left with a toolbox full of ideas to ensure they are memorable and most importantly building relationships.

Bonnie is a pleasure to work with and leaves a smile on everyone's face and a bit of joy in everyone's life after hearing her inspiring program!

Thank you for your consideration in working with Bonnie!

Sincerely,

Becky Needham
