

## CREDIT PROFESSIONALS INTERNATIONAL OF ATLANTA

Dear Bonnie,

I am writing to thank you again for sharing your time and expertise with our District III & IV Conference of Credit Professionals International on April 20, 2012.

The feedback has been unanimously positive. Your topic of “Savvy Networking” was topical, and the tips and skills you suggested will be helpful not only to the entrepreneurs that were present, but to many of the attendees in their professional and personal lives and for all of the members as we learn to network to promote our association and its activities.

We appreciate the great interaction you had with the audience, involving them in the process and keeping everyone engaged and entertained as we learned. You had a lively pace, great eye contact, and a knack for bringing the topic to life that kept everyone involved and on the edge of their seats.

We also enjoyed having you with us later that evening for the networking event where our members were able to practice what you had taught them earlier at the workshop. Thank you for being so gracious, for making our host city of Atlanta look good, and for contributing to the success of our entire conference!
